2. I have asked [REDACTED] to work with you and appropriate staff officers of your office and the Office of the DD/S&T to examine the total [REDACTED] manpower situation in an effort to determine whether or not there are alternative solutions to what will apparently be a continuing problem for the foreseeable future. It is possible that modifications in the procedures and policies currently affecting the recruitment and training of individuals for this project may provide us with the vehicles to solve the problem without indefinitely distorting the ceiling authorization.
